Explore your potential with Moore Stephens

Moore Stephens SA is one of the fastest growing networks of Chartered Accountants and auditors in South Africa, and Moore Stephens International is one of the largest accounting groups in the world with 630 offices in 351 member firms in 98 countries, employing over 20 864 staff.

In South Africa, we have offices in Cape Town, Port Elizabeth, Humansdorp, Jeffreys Bay, Benoni, Pretoria, Stellenbosch, Durban and East London.

We offer a broad range of services, from auditing and tax compliance, through to strategic offerings such as transfer pricing assistance, financial advisory services, consulting and corporate governance advice.

Moore Stephens is known for excellence, innovation and personal client service. We look for the highest calibre of student who fits our company culture.

The partners and directors in each office personally handpick the trainee accountants.

We look at the whole person, not just academic excellence. Show us your initiative, intelligent thinking and commitment and we'll help you to realise your potential.

FUTURE IGNITED

We value our staff and invest in the future of our graduates at Moore Stephens. You will be provided with quality internal and external training, active mentoring and you will be exposed to a diverse range of business sectors and accounting skills. We also offer overseas secondments to many of our 630 offices which will broaden your work experience.

CIMA & SAIPA

Some of the Moore Stephens member firms also accept CIMA & SAIPA trainees. Please contact your local Moore Stephens to confirm this. The Chartered Institute of Management Accountants (CIMA) prepares people for a career in business. It teaches the skills needed to offer

strategic advice, take risks and make key decisions. A CIMA qualification focuses on accounting for business – every aspect of it.

This equips people to rise to any organisational challenge and opportunity that may come their way.

As one of South Africa's foremost accounting institutes, the South African Institute of Professional Accounting (SAIPA), plays a very important role in ensuring that its members are able to optimise their accounting practices or add value to their employers in the corporate world and by doing so, create additional wealth for their country and its people.
